

2026 Capitol Day

Stoa Families are Invited to Capitol Day 2026!

Do you want to put the Stoa motto (Speaking boldly. Changing the World for Christ) into practice? Capitol Day is an event that will make a change and defend your private homeschool rights!

The goal of Capitol Day is to provide information about private home education to our California state legislators and their staff in a friendly, professional manner. This also allows legislators and their staff the opportunity to visit with real homeschool families.

Capitol Day is a one day event on January 21st.

We will start with training for all our participating families, which will include going over the legislative process and equip attendees to visit their state legislators. Once training is completed, attendees will break off into assigned groups and visit legislator offices to deliver homeschool information packets and talk with legislators about private home education. After office visits, lunch will be provided on the Capitol steps while we hear from several speakers.

There will be Capitol tours available in the afternoon once visits are complete.

We need homeschoolers, like you, to represent and defend our freedoms! Application to attend more information can be found in the link below:
