

## Recording Policy

If you are taking photographs, videos or audio recordings at NITOC 2025, please make sure to obtain permission. This includes livestreaming or posting on social media. If the student is a minor, you must have the permission of the student's parent or guardian. If the student is 18, obtain permission from the student. You are always welcome to record your own student when they are speaking.

All debate and speech final events will be recorded by NITOC staff. Following NITOC, some will be selected and made available to Stoa members for educational purposes and training. Since we do not know what will be shared with Stoa members, you should plan to film it yourself if you would like a recording of your student.

**Official NITOC Photographers will wear identification badges.**
