It's fun, informative, and rewarding!

Our speech tournaments attract competitors aged 12 to 18 from across the nation for excellent competition! Our students benefit so much from your written feedback. While they learn a great deal during club practices, nothing hones their skills like the feedback they receive from judges at tournaments. Many of our community judges report a renewed hope for the next generation after judging, and many return to judge for years to come!

Become a community judge today!
